

TWO PEAKS PROPERTY TAKES ON INTEREST WITH DEVELOPMENT

TURNER, Ariz., Nov. 11.—Development work on the Two Peaks property is proceeding with most gratifying results to the management. In the double compartment shaft started last month, ore is being encountered at a depth of 22 feet, which would seem to indicate that the ore body at this point will be encountered at a much shallower depth than was anticipated. The shaft is being sunk on one of the claims of the Larrieu-Chadwick group, which the company recently acquired. It is the intention of the management to sink this shaft to a depth of 500 feet and crosscut the ore body, which is a continuation of the deposit on the Buck claim, where the ore has been cut for a distance of over 200 feet. The present shaft site is 300 feet lower than the Buck workings, and when sunk the required depth will be 800 feet. The shaft will be sunk as far as possible by winlass, after which the completion of the wagon road to the mouth of the shaft will facilitate the introduction of machinery.

For reasons, not divulged by the directors, Two Peaks stock was taken off the market last May, after 10,000 shares had been sold, and none have been offered to the public since. However, W. G. Gilmore, general counsel for the company, whose office is at Tombstone, secured a permit from the Corporation Commission at Phoenix, last Monday, and the company announces that there will be placed 100,000 shares on the market at 25c. The proceeds from this stock will be used for the installation of a hoist, and other material necessary for the development contemplated, and also under way. The company has maintained a full force at work ever since the organization of Two Peaks, last December, and have done considerable development. During this time they have acquired adjoining property, which at present gives them 40 claims and a mill site, aggregating approximately 800 acres of mining land. The property is under the able management of the well known mining engineer, V. G. Mellgren, of Tombstone, Arizona.

MIAMI CONSOLIDATED OPENS WITH FUROR ON NEW YORK MARKET

MIAMI, Nov. 11.—After a most sensational opening in the New York Curb Wednesday, Miami Consolidated Mines company shares showed great activity in the eastern market yesterday and sold up to \$1.

Interest is being shown in the stock in the eastern market as indicated in the telegram received by Louis Lefkowitz here yesterday from C. F. Speedell, head of the Wall Street bureau of the New York Morning Telegraph, who said: "One of the biggest crowds of curbrokers ever witnessed on the curb was assembled today when the Miami Consolidated Mines company stock was called and went from 63 cents to 98 cents within half an hour over fifty thousand shares were traded in today. I congratulate you upon the success of your enterprise."

Mr. Lefkowitz and his office force are simply swamped with work in issuing the stock certificates that were ordered before the night of Nov. 7th. So great was the demand for the stock that more than two hundred thousand shares were rejected because they came in after the time set for closing.

"I am particularly pleased with the class of investors who have taken shares in Miami Consolidated," said Mr. Lefkowitz today. "For instance, such men as United States Senator T. P. Gore has taken a block; and scores of other men of equal prominence are putting their faith in the future of Miami Consolidated."

That confidence in the property is general throughout mining circles in the southwest, is shown by the fact that nearly every mining man of prominence in this part of the country has invested in the shares. This confidence is not alone inspired by the belief that the company property is of exceptional merit, but is alone based on the fact that John S. Cook, who made mining history in Nevada and the Lefkowitz brothers, Henry V. Snell and men of similar integrity and experience are the moving spirits in the enterprise.

SHORT COURSE IN MINING AT VARSITY ENROLLING MANY

The enrollment for the first Short Course for miners at the University has been very gratifying to the authorities of the University. This course started on Monday last and covers a period of five weeks. The students will be given the elements of blowpipe analysis, mineralogy, rock study, geology and surveying. They are taught to identify all of the more important elements by the use of the blowpipe and to recognize the principal ore and gangue minerals at sight. In geology only those parts of the subject directly applicable to mining or prospecting are present, while in surveying the work covers the use of instruments, mapping, computing, connections, etc.

The object of these courses is to give the workmen of the state an opportunity to attend the University, if only for a short time, that they may get in concentrated form information which will enable them to better their own positions, which will result in a more complete and economical utilization of the state's mineral resources.

Inasmuch as there are no entrance requirements to these courses, it is but natural that a varying amount of information be received. Hence the present time is not too late for one interested who understands the elements of mineralogy to enter for the first course, the course for prospectors.

More complete information may be obtained by writing The Dean, College of Mines & Engineering, University of Arizona, Tucson, Arizona.

An Old Man's Stomach.

As we grow older and less active less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain poison, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels. (Advertisement)

DIAZ CAPTURES CITY

NOT FAR FROM VERA CRUZ. ON BOARD THE U. S. GUNBOAT WHEELING, ON The Coast of Vera Cruz (By Wire to Pensacola) Nov. 11.—The forces of General Felix Diaz, nephew of former President Porfirio Diaz, have captured Tehuantepec City and have invested Salina Cruz. On the Gulf of Mexico side of the isthmus the Felixistas are reported to be within six miles of Coatzacoalcas. A force of 700 Carrancistas left Vera Cruz yesterday to take the field against the revolutionists.

4 MILLION LETTERS TO FRENCH SOLDIERS DAILY

PARIS, Nov. 11.—The French soldiers' correspondence now amounts to nearly four and a half million pieces per day. They receive an average of four million ordinary letters, 300,000 registered letters, 10,000 postal and telegraphic money orders, and 50,000 newspapers.

It keeps busy a staff of more than 2,000 special employees at the central postoffice in Paris while 26 clerks sufficed during the first three months of the war, for an average of 600,000 letters and 40,000 packages.

The present staff handles 220 tons of matter per day, and it requires 44 cars of the French standard size to

BISBEE-AJO COPPER COMPANY

Have now reached a depth of 90 ft. with their two compartment shaft, and are still going through a heavy oxidized iron capping that appears to cover the main ore deposit. This work has been carried on by hand, but a hoist and other mining machinery have now been ordered and will be installed as soon as it is delivered.

This company has also acquired an additional group of mining claims that joins the Ajo Consolidated mines in Ajo, this new group of claims are located less than one mile from the post office in Ajo and have an exceedingly good surface showing, the Ajo Consolidated ground, that we join, are now being diamond drilled and they have developed possibly the largest and richest ore deposit in all Arizona. It is reported that \$12,000,000 have been refused by this company for this property. They are now drilling in very high grade ore long side of Bisbee-Ajo ground, and we find that they are now located in the heart of the largest and richest copper district in all the world. Bisbee-Ajo has a very promising future. Now is your chance to secure this stock at twenty-five cents. Never before has such an opportunity knocked at your door. We are located less than a mile from the world famous New Cornelia mine, now selling at \$19.00 per share. We have also a chance to dispose of a large block of this stock at 50c in the east, and for the above reasons this stock will advance to 50c in a short time, and we have only a very limited amount left at 25c. First come, first served. (Advertisement)

distribute it among the principal headquarters behind the front.

The soldiers' mail now equals the ordinary peace time postal traffic for the entire country and the letters alone are triple the ordinary distributions in the city of Paris.

For a Weak Stomach.

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when capitated, take me of Chamberlain's Tablets. (Advertisement)

Keeps Her Children In Perfect Health

DR. CALDWELL'S SYRUP PEPSIN THE FAMILY LAXATIVE FOR MANY YEARS.

Mrs. Aug. Doellefeld of Carlyle, Ill., recently wrote to Dr. Caldwell, at Monticello, Ill., that she has used Dr. Caldwell's Syrup Pepsin in her home for a number of years, and would not be without it, as with it she has been able to keep her four children in perfect health.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin that acts on the bowels in an easy, natural way, and regulates the action of this most important function. Nearly all the sickness to which children are subject is traceable to bowel inaction, and a mild, dependable laxative, such as Dr. Caldwell's Syrup Pepsin should have a place in every family medicine chest. It is pleasant to the taste and children like it, and take it readily, while it is equally effective for adults.

Dr. Caldwell's Syrup Pepsin is sold in drug stores everywhere for fifty cents a bottle. To avoid imitations

and ineffective substitutes be sure you get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois.

NOTICE!

The Santa Cruz-Bisbee Mining Company is going to have a large mineral exhibit at the State Fair at

PHOENIX

J. O. Tonkin, the secretary, is going to have charge of this exhibit and will be away from Bisbee for ten days. Anyone desiring to buy stock at 50 cents had better get busy, the stock will be \$1.00 per share in a few days, as we look for all the 50 cent stock to be sold out by our return.

Make reservations at once by depositing the money to our credit in the

BANK OF BISBEE

J. O. Tonkin, Secretary.
